

THE REVALUATION OF DUNELLEN

The following is the definition of a Revaluation Program as described in the "Handbook for New Jersey Assessors" :

"A revaluation program seeks to spread the tax burden equitably within a taxing district by appraising property according to its true value and assessing it based upon such value. This is accomplished by the mass appraisal of all real property in the taxing district by an outside professional appraisal or revaluation firm."

The following power point presentation was created by Appraisal Systems, Inc. to provide a basic outline of the revaluation process. All rights are reserved.

THE REVALUATION OF DUNELLEN

There is an erroneous assumption by some that a revaluation is a means by which a municipality increases property taxes.

Revaluations do not increase the total amount of revenue to be raised by taxation. The municipality only collects the amount of tax dollars that the four units of local government (local school, regional school, county government and municipal government) determine is necessary to operate.

New Jersey's real property tax is ad valorem or a tax "according to the value." The State Constitution at Article VIII, Section 1, Par. 1 requires that all real property be assessed at the "same standard of value." New Jersey Statutes at N.J.S.A. 54:4-23 establish the standard of property value to be the "full and fair value" or "true value" which is defined as "the price at which, in the assessor's judgement, each parcel of real property would sell for at a fair and bona fide sale."

THE REVALUATION OF DUNELLEN

Why a Revaluation?

- Ordered by County Board of Taxation
- Criteria used to determine need:
 - * last reval (1977)/ last reassessment (1982)
 - * average ratio (24.52%)
 - * coefficient of deviation (19.42)
 - * number of appeals

Other:

- * changes in characteristics in areas or neighborhoods within the municipality and in individual properties

- * economics (inflation and recession)
- * fads (desirability of architecture, size of home, etc...)
- * legislation (wetlands, pinelands, zoning, etc...)

Dear Property Owner:

As directed by the Passaic County Board of Taxation and as ordered by the State Division of Taxation, the City of Paterson must revalue all taxable real estate for the 2015 tax year to ensure uniform and equitable assessments. The City has contracted Appraisal Systems, Inc. to conduct the revaluation program.

The first step in the revaluation process is the inspection of all properties in the City. Representatives from Appraisal Systems, Inc. will be visiting each property, measuring the exterior of all improvements and conducting an interior inspection. In addition, an Appraisal Systems Inc. photographer will also be visiting each property to photograph the exterior of all buildings. No interior photographs will be taken.

If no one is home at the time of the representative's first visit, he/she will measure the exterior of all improvements and leave a card specifying when he/she will return to do an interior inspection. In order to properly assess your property, it will be necessary for a representative of Appraisal Systems, Inc. to examine the interior of all buildings, including basement and walk up attic areas. Appraisal Systems Inc. representatives will carry photo identification and a listing of our employees will be posted on the Appraisal Systems Inc. website and on file at the Municipal Building. **Please do not allow anyone to enter your home without proper identification.** You will be requested to sign the field form used by the representative to acknowledge that an interior inspection was made. Please prepare the occupants of any rental units you may own concerning the inspection to be made. For multi family homes, each unit will require an interior inspection.

If your property has a unique condition that influences value, please send documentation to Appraisal Systems, Inc., 110 South Jefferson Road, Whippany, New Jersey 07981 and it will be considered.

After the appraisals have been completed, you will be notified by Appraisal Systems, Inc. of the pending valuation that has been placed on your property, as well as procedures to review the assessment with a qualified representative of the firm.

Enclosed is a brochure prepared by Appraisal Systems, Inc. which addresses questions generally asked by property owners concerning revaluations. You can also visit our website at www.asnj.com and click on the Frequently Asked Questions Page (FAQ). Any inquiries with respect to the inspection procedure should be directed to the firm at (201) 493-8530.

Very truly yours,

The Success of any revaluation program depends on the confidence of an informed citizenry in the justification of established property values. We realize that to gain this confidence we must keep the public aware of our methods and progress. Direct contact with the taxpayer through meetings with service clubs, religious or civic groups, etc. will help us develop a greater public understanding of, and confidence in the revaluation program. Our purpose is to establish an equitable tax base. We welcome your interest and seek your cooperation.

IT IS THE DUTY OF THE MUNICIPALITY TO RECORD INFORMATION RELATIVE TO THE INTERIOR AND EXTERIOR OF EACH PROPERTY ARE
THE BUILDING DIMENSIONS DETERMINED.

It's important to point out that the valuation of your home will be based on the total living area in terms of square footage rather than by a room count, although the inspector will list the total number of rooms for descriptive purposes only.

Aside from the living area, other features which will affect the valuation of your home include: remodeled bathrooms and kitchens, finished basements, central air conditioning, decks and patios, pools, garages and overall condition of the home. The physical condition of the structure is noted to establish depreciation factors for age, use, etc. Topographical features of the land are also noted as they affect value.

If unable to gain entrance at the time of the first visit, the field representative will leave a card suggesting a time for a return visit and a phone number to enable you to schedule the next visit at a mutually convenient time. If at the time of the second visit an interior inspection is again not possible, a considered estimate of the interior structure of the premises will be made by the inspector. This information will be recorded on a card and left for the homeowner. If the estimate is incorrect, the property owner may call the phone number on the card and left for the homeowner. Inspection of the property at a mutually convenient date and time. Appraisal Systems must develop accurate records based on actual field inspections and not existing documents.
